Ideation Phase
Define the Problem Statements

Date	31 January 2026
Team ID	LTVIP2026TMIDS34601
Project Name	TransLingua
Maximum Marks	2 Marks

Customer Problem Statement:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	[illegible]	Describe the customer and their attributes here
I'm trying to	[illegible]	List the thing they are trying to achieve here
but	[illegible]	Describe the problems or barriers that get in the way here
because	[illegible]	Describe the reason the problems or barriers exist
which makes me feel	[illegible]	Describe the emotions the result from experiencing the problems or barriers

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A business professional expanding to international markets	Translate business documents, marketing materials, and customer communications into multiple languages accurately	Hiring professional translators is expensive and time-consuming, and free tools often produce inaccurate or awkward translations	Traditional translation workflows create bottlenecks in our global expansion timeline and budget	Frustrated and limited in my ability to effectively communicate with a broader international audience
PS-2	A university researcher collaborating with international peers	Translate research papers, academic articles, and team communications across different languages	Existing translation tools struggle with complex academic terminology and lose the nuanced meaning of scholarly texts	Academic language requires domain-specific understanding that general-purpose translators fail to provide	Overwhelmed by the manual effort required to ensure translation accuracy for critical academic work
PS-3	A tourist visiting a foreign country	Understand local signs, menus, and communicate with locals in a language I don't speak	I can't carry a dictionary everywhere, and basic translation apps give robotic, context-less translations	Real-time communication needs demand instant, context-aware translations that feel natural	Anxious, isolated, and unable to fully experience the travel destination
